## Don't forget to have fun

It is WAY too easy to get overwhelmed with everyday life and responsibilities to forget why we are doing this in the first place. We work to live not the other way around. And living means spending time with friends and family and HAVING FUN!!

Having fun is exactly what we did last weekend. The Glengarry Pioneer Museum celebrated its 50th anniversary by holding a Pioneer Ball. All were encouraged to dress in period costumes or Scottish attire. I would say that 30% dressed in heritage dress and another 30% dressed in Scottish attire. In this community most residents have a kilt tucked into their closet. Close to 230 people danced, ate and drank their way through a wonderful evening.

Hmm it has been so long since I have been in a dress I felt like I was in drag.
